

SUMEET KUMAR SINGH

Aspiring GenAI Engineer — AI/ML & Python Developer

☎ +91-9334034110 | ✉ sksingh655@yahoo.com | [🌐 linkedin.com/in/sksinghgcet27](https://www.linkedin.com/in/sksinghgcet27) | [🐙 github.com/SKSingh655](https://github.com/SKSingh655) | 📍 Greater Noida, India

PROFESSIONAL SUMMARY

Computer Science student specializing in Artificial Intelligence, building a focused path toward Generative AI engineering. Hands-on experience across three internships processing 50,000+ data points at 99% accuracy and optimizing enterprise SQL systems. Actively building agentic-AI projects using Model Context Protocol (MCP) and Agent-to-Agent (A2A) communication. Strong foundation in Python, SQL, and cloud platforms. Seeking AI/GenAI engineering internship or entry-level role.

EDUCATION

Galgotias College of Engineering and Technology <i>B.Tech in Computer Science & Engineering (Artificial Intelligence)</i>	Greater Noida, India <i>Expected: June 2027</i>
Delhi Skill and Entrepreneurship University <i>Diploma in Computer Science & Engineering – CGPA: 8.91/10</i>	Delhi, India <i>Graduated: 2024</i>

TECHNICAL SKILLS

Languages: Python (Pandas, NumPy), SQL (PostgreSQL, MySQL), JavaScript, HTML5, CSS3
AI & GenAI: Generative AI, LLMs (GPT, Claude), Prompt Engineering, IBM Watsonx, MCP (Model Context Protocol), Agent-to-Agent (A2A), Chatbot Development
Cloud Platforms: IBM Cloud (Watsonx, deployment), AWS Academy Graduate (Cloud Foundations, GenAI Foundations), Google Cloud Platform
Tools & Automation: Git, GitHub, n8n (Workflow Automation), FastAPI, REST APIs, Agentic Coding (Google Antigravity)
Data & Analytics: Data Validation, Statistical Analysis, Data Visualization, Excel (Advanced - Macros, VBA), Google Sheets
DSA & Problem-Solving: Data Structures & Algorithms (Arrays, Strings, Hashing, Stacks), Active on LeetCode

PROFESSIONAL EXPERIENCE

Concentrix <i>Research Analyst Intern</i>	Gurgaon, India <i>July 2025 – September 2025</i>
- Conducted comprehensive research analysis and data validation on 50,000+ data points, achieving 99% accuracy through systematic evaluation and quality-control processes - Built Python automation scripts and Excel macros to streamline workflows, reducing manual processing time by 35% and improving operational efficiency - Performed statistical analysis on large datasets to identify trends, patterns, and actionable insights supporting strategic business decisions	
Aplus Solutions <i>Junior Software Support Intern</i>	Remote <i>January 2024 – June 2024</i>
- Optimized SQL queries for .NET enterprise systems managing 100,000+ records, improving database performance by 25% through query analysis and indexing - Participated in full SDLC from requirements gathering to deployment, gaining hands-on experience with agile methodologies and software development processes - Resolved 50+ technical issues with 95% client satisfaction through systematic troubleshooting, root-cause analysis, and effective solution implementation	
Trendsetter Skill Assessors <i>IT Intern</i>	Gurgaon, India <i>July 2023 – August 2023</i>
Supported backend systems and database operations for enterprise clients including Tata Motors digital transformation projects	

AI & TECHNICAL PROJECTS

ResearchForge AI <i>Python, FastAPI, Anthropic MCP SDK, A2A Communication</i>	GitHub
- Multi-agent research platform with Manager, Researcher, Fact-Checker, and Summarizer agents coordinating via Agent-to-Agent (A2A) message passing - Integrated Anthropic MCP SDK (FastMCP) connecting agents to Search and Storage MCP Servers with real tool-calling architecture - Designed glassmorphic dashboard with Simulation Mode and Live AI Mode (Gemini API) for real-time research report generation	
IBM EduGuide Campus Assistant <i>IBM Watsonx, NLP, IBM Cloud</i>	Sept – Oct 2025
- Deployed intelligent AI chatbot using IBM Watsonx with custom NLP models and intent classification for 15+ query categories - Served 500+ students with 60% reduction in response time; analyzed user interaction data to optimize AI model accuracy	
DevFolio – Developer Portfolio <i>HTML5, CSS3, JavaScript, Google Antigravity</i>	GitHub Pages
- Single-page portfolio site built with AI-assisted "vibe coding" using Google Antigravity for rapid prototyping and responsive design - Implemented decoupled data layer (projects.json), serverless contact form, and persistent light/dark theming	

CERTIFICATIONS & CONTINUOUS LEARNING

IBM GenAI Engineering Professional Certificate (In Progress) – LLMs, Prompt Engineering, RAG Systems, AI Applications (Courses 1-2 completed with badges)

AWS Academy Graduate – Cloud Foundations & Generative AI Foundations

Google & Kaggle AI Workshop (Ongoing) – Vibe Coding/Antigravity, MCP, A2A, Agent Patterns

Udemy GenAI Specialization (2025) – GenAI Architectures, Transformer Models, Practical AI Implementation

Additional: IBM SkillBuild Professional Development, CSRBOX-IBM Watson AI Workshop, Front-End Development Certification

LEADERSHIP & KEY ACHIEVEMENTS

👥 **General Secretary, E-Cell DSEU AIT** (2022-2023) – Led 200+ students, organized 5+ entrepreneurship events

✅ **Research Impact:** Processed 50,000+ data points with 99% accuracy; improved workflow efficiency by 35%

🔗 **Quick Learner:** 6+ professional certifications in AI, Cloud, Development within past 12 months

🕒 **Availability:** Immediate joiner, flexible for full-time internships, open to on-site/remote/hybrid work
